

TERMS OF LOVE

When a rising brand executive is drawn into an invitation-only dating platform for the wealthy, she sees it as a sophisticated answer to modern intimacy: discreet, aspirational, and designed for people who understand the value of control. Her match with a powerful investor quickly becomes the most intoxicating relationship of her life, opening the door to a world of luxury, influence, and carefully curated desire. But as the affair deepens, small inconsistencies begin to disturb the fantasy. The platform seems to know too much. Encounters feel too perfectly engineered. Private disclosures start to echo in places they should never reach. What first appeared to offer connection and exclusivity begins to reveal itself as something far more dangerous: a system where attraction can be shaped, vulnerability can be harvested, and intimacy can be turned into leverage. Set against the polished surface of contemporary London, **TERMS OF LOVE** is an erotic romantic thriller about ambition, seduction, and the hidden cost of being truly seen. As desire and suspicion become impossible to separate, one woman is forced to question whether she has found love or entered a trap designed around her.
