

THE CONTRACT WIFE

When a ruthless property developer faces losing control of his family empire, he enters a calculated marriage of convenience to satisfy the final condition in his grandfather's will. The arrangement is meant to be simple: present a credible wife, secure the inheritance, and keep emotion out of the deal. But the woman at the centre of the contract is far less predictable than he anticipated, and what begins as a strategic alliance soon becomes a dangerous entanglement.

Drawn into a world of wealth, control, and family power plays, she finds herself navigating suspicion, manipulation, and the growing pressure of a relationship built on deception. As scrutiny intensifies and private loyalties begin to shift, the carefully negotiated terms of the marriage start to fracture. Attraction deepens, trust becomes harder to measure, and the emotional cost of the arrangement rises with every compromise. When a devastating illness threatens to change everything, both are forced to confront what was supposed to remain purely transactional. In a world where love can be weaponised as easily as money, the contract may prove to be the most dangerous promise either of them has made.
