

MOTHER OF THE BRIDE

On the brink of marriage to a fast-rising actor, a young woman appears to have secured the glamorous future she has always wanted. He is charming, ambitious, and on the verge of real success. But the moment their engagement is announced, the celebration curdles into private devastation when her mother recognises him as the same younger man she has been secretly unable to walk away from. What begins as a shocking betrayal quickly spirals into a dangerous emotional war fought behind closed doors and under the glare of expectation. As mother and daughter are pulled into a brutal struggle for love, power, and self-preservation, the man between them becomes both prize and threat – torn between ambition, desire, guilt, and the life each woman represents. With a marriage in motion, a family starting to fracture, and reputations hanging by a thread, every attempt to contain the truth only drives the scandal closer to eruption. In a world where appearances matter and desire refuses to stay in its place, one engagement sets off a chain reaction no one can survive unchanged.
